

TURN-KEY, CONTAINERIZED LEACHATE TREATMENT UNIT MAKES A LANDFILL FOR A BETTER PLACE

Covasna, Romania, 2016

landfill leachate treatment

Keviép Ltd.

PURE-RO/LTC

landfill

130 m³/h

On the Covasna site 107,5 m³ raw landfill leachate is produced daily, in addition additional 22,5 m³ sewage generated on the site to be treated as well. This represents a total of 130 m³ of contaminated water per day. We delivered the compact solution suitable to treat landfill leachate, mainly consisting of Hungarian-made equipment and unit, in a container. Pureco provides turn-key, containerized leachate treatment units, equipped with Reverse Osmosis after suitable pre-treatment. Making the technology available in container means transportable, complex, easy to install solution for purifying the dirtiest water of human consumption.
